

Phase 9 - Add Reports to Dashboard

Import Data using Transform Maps (Spreadsheet) - ServiceNow

Goal: create a dashboard and add the three reports to it.

Create the dashboard

1. Open All menus > Dashboards (Self Service), or use the backend name PA_DASHBOARDS.FORM.
2. The backend form only opens if the pa_dashboards create ACL has Admin overrides set to true:
 - Open All menus > Access Control (ACL). Search Name: pa_dashboards.

The screenshot shows the ServiceNow Studio interface. On the left, the 'Access Control (ACL)' menu item is highlighted. The main area displays the 'Access Controls' table for 'pa_dashboards'. The table has columns: Name, Decision Type, Operation, Type, Active, Updated by, and Updated. The row for 'pa_dashboards' with Operation 'create' is highlighted.

Name	Decision Type	Operation	Type	Active	Updated by	Updated
pa_dashboards	Allow If	write	record	true	admin	2019-03-25 09:32:03
pa_dashboards	Allow If	write	record	true	admin	2016-04-19 03:29:14
pa_dashboards	Allow If	read	record	true	admin	2019-03-25 09:34:18
pa_dashboards	Allow If	report_view	record	true	admin	2022-11-16 22:19:19
pa_dashboards	Allow If	delete	record	true	admin	2016-04-19 03:26:55
pa_dashboards	Allow If	read	record	true	admin	2018-03-01 07:27:17
pa_dashboards	Allow If	create	record	true	admin	2026-01-29 22:47:37
pa_dashboards	Allow If	delete	record	true	admin	2019-03-25 09:35:29
pa_dashboards.*	Allow If	query_range	record	true	@snc_write_audit@	2025-09-08 22:49:16
pa_dashboards.group	Allow If	write	record	true	admin	2016-07-28 06:29:53
pa_dashboards.notification_link_label	Allow If	query_range	record	true	@snc_write_audit@	2025-09-08 22:49:16
pa_dashboards.notification_text	Allow If	query_range	record	true	@snc_write_audit@	2025-09-08 22:49:16
pa_dashboards.owner	Allow If	write	record	true	admin	2021-11-04 08:32:01
pa_dashboards.restrict_to_roles	Allow If	write	record	true	admin	2016-09-08 02:00:29
pa_dashboards.restrict_to_roles	Allow If	query_range	record	true	@snc_write_audit@	2025-09-08 22:49:16
pa_dashboards.restrict_to_roles	Allow If	write	record	true	admin	2018-03-01 08:50:55

- Open the row with Operation = create. Enable Admin overrides and click Update.

Access Control rule configuration for **pa_dashboards**.

- Name: **pa_dashboards**
- Type: **record**
- Operation: **create**
- Decision Type: **Allow If**
- Admin overrides: ☒
- Protection policy: **-- None --**
- Name: **Dashboard [pa_dashboards]**
- Description: **Allow create for records in pa_dashboards, for users with role maint.**
- Applies To: **Dashboard [pa_dashboards]**

Conditions

Access Control Rules have two decision types, and these types will behave differently depending on conditions.

1. Allow Access: Allows access to a resource if all conditions are met. Additional ACLs may grant access to records where this ACL has not granted access.
2. Deny Access: Denies access to a resource unless all conditions are met. Additional ACLs may not grant access to records where this ACL has denied access.

Add reports to the dashboard

1. Open All menus > Reports (Usage and Governance).

Reports						
Title	Table	Type	Field Name	Created by	Updated	
Employee List Report	Employee Test [u_employee_test]	List		admin	2026-01-29 20:57:32	
Employees by Location	Employee Test [u_employee_test]	Bar	u_location	admin	2026-01-29 20:42:51	
Employees by Department	Employee Test [u_employee_test]	Pie	u_department	admin	2026-01-29 20:39:25	
SLA Performance Trend	Incident [incident]	Bar	opened_at	admin	2026-01-02 02:32:06	
Pending Justifications	Incident [incident]	List		admin	2026-01-02 01:13:00	
Top Assignees with SLA Violations	Incident [incident]	Bar	assigned_to	admin	2026-01-01 22:54:58	
Acknowledged vs Unacknowledged Breaches	Incident [incident]	Pie	u_sla_acknowledged	admin	2026-01-01 22:47:18	
SLA Breaches by Assignment Group	Incident [incident]	Bar	assignment_group	admin	2026-01-01 22:23:49	
SLA Breaches by Reason	Incident [incident]	Pie	u_sla_breach_reason	admin	2026-01-01 22:15:34	

2. Open Employees by Department and click View Report / Edit Report.

Report: Employees by Department

Please configure this report using Edit Report, and create new reports using View / Run.

Application: Global

Title: Employees by Department

Table: Employee Test [u_employee_test]

Field Name: u_department

Type: Pie

Chart size: Large

User: 6816f79cc0a8016401c5a33be04be441

Filter: Add Filter Condition Add OR Clause

Roles: [edit icon]

Update View Report Edit Report Delete

SN Utils | Versions / 2

3. Click Share (top right), then Add to Dashboard.

4. Choose Employee Analytics Dashboard and click Add.

5. Repeat for Employees by Location and Employee List Report.

You can also add report widgets using the + icon on the dashboard, and change the background color if you want.

Sharing

Use the Share option to restrict access by users, groups and roles.

Conclusion

- Import Sets and Transform Maps automate employee data loading with accuracy and integrity.
- Coalesce on Employee ID prevents duplicates; repeated imports update existing records.
- Reports and the dashboard give one central view of department and location distribution and the employee list.
